For over 40 years I have coached on the high school level in Mississippi, and have been inducted into the Mississippi Coaches Hall of Fame. I continue to coach at the age of 65.

Within the past 12 years I have had brain surgery and open-heart surgery. Following these two surgeries, I obtained a massage chair from *Med-Lift*. I go home around one o'clock daily and return to school for ball practice at three o'clock.

The massage chair provides me with an excellent way to relax for about an hour. Daily use of the chair refreshes physically and mentally. This enables me to continue coaching fulltime at a high level of performance.
